Feed advice:

Feed recommendation per day:

High dosage 10 ml per 100 kg body weight

- Pony (300 kg): 30 ml
- Horse (600 kg): 60 ml

Feed the high dosage during the first 7-14 days of feeding. It is possible to continue for intensive support if necessary.

Maintenance dosage

5 ml per 100 kg body weight

- Pony (300 kg): 15 ml
- Horse (600 kg): 30 ml

Instructions

Use the dosing function on the bottle to measure the exact amount. Mix with feed.

Be aware: do not use Pavo 18Plus Comfort in competition horses (FEI doping positive), foals, growing horses and pregnant or lactating mares
